# QUEBEC VOTES

## POLICY QUESTIONNAIRE

As an organization committed to advocating for the health, safety and well-being of children and youth, the CPS sent the following questions to each of the major political parties:

1. How will your party ensure that all children and youth in Québec have access to a full array of publicly funded and evidence-based mental health programs, services and supports, when and where they need it?
2. What will your party do reduce inequities in access to paediatric mental health care and increase the availability of school-based services and supports?
3. How will your party help to increase competencies in paediatric mental health for health care providers?

Quebec is going to the polls on October 3 to elect a new provincial government.

As a paediatric health expert you are a respected voice in your community. By actively engaging in this election you can help influence the future of child and youth health and well-being in Quebec.

All responses to the policy questionnaire are posted on the **CPS website**:
