PRINCE GEORGE

Pediatrics Opportunities

UHNBC serves both the immediate population of Prince George (approx. 80,000) and is a referral centre for outlying communities (total population approx. 400,000). It is the main teaching centre for medical students in the Northern Medical Program (NMP) and provides teaching for University of British Columbia residents in several specialties. A Cancer Centre on the hospital site includes both Radiation and Medical Oncology services. The implementation of a new Cardiac Care Unit (CCU) and ongoing development of UHNBC as a future Interventional Cardiac Care Centre makes this an exciting time to join the medical community in Prince George.

Prince George is the center of business, education, health and culture for Northern British Columbia. It is built on the confluence of the Fraser and Nechako rivers. Prince George is the home of the University of Northern British Columbia – Canada's Green University. With an average of 2,000 hours of sunshine per year, you can enjoy the outdoors all year round. There is something for everyone, whether you're a skier, a golfer, a biker, an artist, or a nature enthusiast. Prince George has several live performance venues, a WHL hockey team, a large convention center, a farmers' market, and several fine dining restaurants. It also has a designated international airport and only 3 hours of driving away from the picturesque Rocky Mountains and the renowned Jasper National Park.

The region's multicultural and economic growth and diversification strategies are creating outstanding opportunities for investors, employers, and employees. Affordable housing (average house price = \$480,000 CAD), land prices and transportation costs, due to short commutes; result in some of the lowest costs of living for a city of its size in the province. Additionally, wage rates are above provincial averages, providing residents of Prince George with a high standard of living in one of BC's most beautiful regions.
